Databases & processing
SQL, MySQL, MariaDB, PostgreSQL, Redis, BullMQ

Mobile & tools
Kotlin, Android, Capacitor, Vitest, C, Git, GitHub

LANGUAGES

Portuguese — Native
English — Intermediate
Spanish — Basic

PROFESSIONAL PROFILE

Software Development student at ESAN, University of Aveiro, with practical experience in web development and backend work, alongside academic and personal projects across frontend, APIs, databases and Android. Seeking a **paid 680-hour curricular internship from February 2027**, preferably in Coimbra.

SELECTED PROJECTS

SaborGest | PHP 8.3, PDO, REST API, MySQL/MariaDB, Kotlin
Academic management system in development, combining a PHP web panel and REST API with an Android kiosk. Scope includes staff scheduling, attendance and stock management. Integration and real-world validation are ongoing; not production-ready.

RunLattice | Next.js, React, TypeScript, PostgreSQL, Prisma, Redis, BullMQ
Workflow automation prototype with a visual editor, workflow CRUD API, graph validation, database persistence and execution history. BullMQ queues simulated graph traversal; external integrations and authentication are not implemented.

MRDR. | React 19, TypeScript, Vite, Zustand, Vitest, Capacitor
Mobile-oriented deduction game in development, using structured state management, a test setup and Capacitor as the mobile deployment layer.

RAW. | React, JavaScript, Tailwind CSS, Framer Motion
Interactive conversation experience with question decks, game modes, card-based interaction and motion. Live application; source repository is private.

PROFESSIONAL EXPERIENCE

CNC Machine Operator | Schmidt Light Metal Group
Feb 2025 – May 2026 · Operated CNC machinery, monitored production and performed quality-control checks.

Store Operator | MC
May – Aug 2024 · Customer service, stock replenishment and store/warehouse organisation.

(project/academic experience), and in 680nff sarehouse organisation.
MRDR. Store Operator
